

# The One (Back In Your Arms)

Master Blaster

The time is right and we fight against  
The lonely darkly sky  
I'm the one who chase your fear away  
No more goodbyes  
There ain't nothing gonna take my heart away  
And I remember all the time we had  
Tears in your eyes  
I'm a victim of your love  
and you can read my mind, read my mind,  
I wonder why  
I thought this dream will be forever till we die,  
Until we fly.  
Back in your arms  
I wanna touch your body back in your arms...  
Back in your arms  
I wanna lay my body back in your arms  
Back in your arms  
I wanna touch your body back in your arms  
Back in your arms (X2)  
Back in your arms  
Trust in your heart,  
'cause the answer is a simple 'Sorry!'  
Take my hand and I can show you wonderland  
No more goodbyes,  
There ain't nothing gonna take my heart away  
And I remember all the time we had  
Tears in your eyes  
I'm a victim of your love  
and you can read my mind, read my mind  
I wonder why  
I thought this dream will be forever till we die  
Until we fly  
Back in your arms,  
I wanna lay my body back in your arms  
Back in your arms  
I wanna touch your body back in your arms (X2)  
Back in your arms,  
I wanna lay my body back in your arms  
Back in your arms  
I wanna touch your body back in your arms (X2)  
Back in your arms.
