Re-entry & Destruction

Master

Nuclear war, Earth drops it's floor Bodies will pour Re-entry & destruction Soldiers don't fight Can't stop this fight No future in sight Re-entry & destruction

As the worlds of hatred
Passed between the two super powers
Of the world
Existing terms of peace, were broken
Governmental leaders heard not the cries
For peace

Only the cries of their pride Screaming out for world-wide Recognition & glory

World-wide panic spread through-out-the-world As the holocaust was unleashed Burning bodies cried out of pain As the nucler war-heads crushed the Earth And everything surrounding it The Earth is destroyed

The final fight, Satan's delight
There's no light
Re-entry & destruction
Who knows whose wrong
Survive will the strong
Who knows how long before
Re-entry & destruction
