

Baby Let It Be

Masterboy

Baby let it be, let it be
Baby, Baby let it be, let it be
Baby, Baby let it be, let it be
Baby, Baby let it be

Come on Baby let it be

Tell me that you know what you're doing
Show me that you keep control
You say that's the way you're choosing
Cause you want to free your soul

But you do what you do and you're playing with fire
Don't burn your hands as you're taking a chance
You're on a trip to get higher and higher
Baby can't you see

Guess you think you can't be wrong
Feeling cool, feeling strong
In the long run you will loose
And that's not the way to choose
Change your style and turn back
Live your life on the right track
Life is precious don't you break it
If you get a chance then take it

But you do what you do and you're playing with fire
Don't burn your hands as you're taking a chance
You're on a trip to get higher and higher
Baby can't you see
