

# Children of the night

Masterboy

Chorus:

Feel like children of the night  
let's walk into the light  
like children of the night

Repeat chorus

a child is born to the night  
will it live to see the light  
ghetto life means  
tears and pain  
many people cry in vain  
this generation  
over the nation  
we're gonna take control  
like revolution's

Repeat chorus(2x)

education is the key  
leave your hands off extasy  
respect for life and liberty  
Masterboy will set you free  
this generation  
over the nation  
we're gonna take control  
like revolution's
