

# Betrayal

## Masterplan

I can see you have secret in your eyes  
fooled me twice with your fading smile  
No one ever seemed to take you higher  
and like the lover's hand you're hard to believe in

I can't believe it, what am I seeing  
playing the games that you play  
I can't believe it, hiding my feeling  
don't wanna force you to stay

[CHORUS]

Why can't you tell me your lies,  
we just can't stay together  
And why don't you tell me goodbye,  
we lost our time forever

I've stayed awake for so long, now I am changing my way  
The road that I'm crossing is leading astray  
I feel the dawn of my changing love  
I'm feeling my heart is gonna stop

Never revealing, always deceiving  
Wasting my time once again

[CHORUS]

Why can't you tell me your lies,  
we just can't stay together  
And why don't you tell me goodbye,  
we lost our time forever

I'm feeling so alone, why can't you see  
What have you done to me, oh can't you see

[SOLO]

[CHORUS]

Why can't you tell me your lies,  
we just can't stay together  
And why don't you tell me goodbye,  
we lost our time forever

Why can't you tell me your lies,  
we just can't stay together  
And why don't you tell me goodbye,  
we lost our time forever

No, don't be a stranger, oh no  
I'm feeling so alone.....
