

Earth Is Going Down

Masterplan

I can see the world is changing in time
No matter what I do I'm always behind
I can hardly tell the secret in your eyes
I don't wanna know when the sun will fail to rise

Time will tell if there's some truth or if it's all lies
And I don't want to turn around
Nothing's gonna change your mind and I can
tell you that you're leaving us behind
The earth is going down

[CHORUS]

I can't see what's in your mind
And the stars are burning black
Earth starts to shiver, down comes the river
Man was never a giver

Still believe that everything is alright
There is no way to go we never will find
I will never get the truth out of your mind
Please don't let me go I am fighting for my life

Time is running fast and nothing that we try
will forever stay together
The earth is going down

[CHORUS]

I can't see what's in your mind
And the stars are burning black
Earth starts to shiver, down comes the river
Man was never a giver

[SOLO]

I can see that you run away, hard kind of feeling again

[CHORUS]

I can't see what's in your mind
And the stars are burning black
Earth starts to shiver, down comes the river
Starting all over again
I'm seeing what's in your mind, stars burning black again
