

# Spirit Never Die

## Masterplan

There was a place - a little town  
Where we used to play and laugh around  
We went too far - reaching for that star  
And the light moved away from me  
And the spirit never died - the world belongs to me  
This is when I've been given time to live and see  
I'll never give up - never give in  
Won't stop believing cause I'm gonna win  
Sing with my soul before I get old  
Cause there may be no tomorrow  
There is no limit to what can be done  
Climbing the mountain with power so strong  
Dusty roads - down the way  
Leaving the future behind me  
I got a fast car - like a rock star  
Come and join the ride with me  
Take a spin downtown  
Check out who's around  
I'll show you where you wanna be  
And the spirit never dies - let the musik take you higher  
I know what it means to burn  
That's how I began to learn  
So never give up - never give in  
Rise from the fire if you're gonna win  
Sing with your soul - soon you'll be old  
Fight the demons inside you  
There is no limit to what can be done  
Climb every mountain with power so strong  
Dusty roads on the way - leaving the past behind you  
I've seen love in vain  
I have felt the pain  
Torn in desire  
Lead by the fire  
And as I lived it all the world became to small  
And my colors grew colder  
The spirit takes me higher  
Never give up - never give in  
Won't stop believing cause I'm gonna win  
Sing with my soul before I get old  
What if there's no tomorrow  
There is no limit to what can be done  
Climbing the mountain with power so strong  
Dusty roads - down the way  
Leaving the memories behind me  
Use the spirit
