

# The Sun Is In Your Hands

Masterplan

I've got something to show you  
I give you something real  
I'm gonna rock till it's over  
I came to make you feel ... yeah  
Someone took me from heaven  
I was a holy child  
Now i'm a lord of thunder  
I rose above the cry  
On the road to somewhere  
I'm not coming back again  
Sending all my power to the lonely  
You can walk the distance with me  
And follow till the end  
And burn the spirit in your heart  
The sun is in your hands  
Heartless ride for the lonely one inside my wishing  
well  
I took my blues to the dark side to break the chain of  
spell ... yeah  
I sold my soul to trouble  
Forever a gambling man  
Climbing up the tower with my fire  
I'm not going back again  
On the road to somewhere  
Hoping for a lifetime that is longer ... yeah  
You can walk the distance with me  
And follow till the end  
Burn the spirit in your heart  
The sun is in your hands ... in your hands  
When life is a heartless ride  
I take my blues to the other side ... yeah  
Selling my soul for double  
Always a gambling man  
Sending all my power to the lonely  
Hey stranger we can't breathe in water  
But we can move the land  
So find the magic in your heart  
Cause you can walk the distance with me  
And follow till the end  
And burn the spirit in your heart  
The sun is in your hands
