

# Annihilation Of The Spirit

**Masters of Reality**

Angel you hypnotize me  
You hypnotize me  
Like the sun setting right behind me  
Right beside me  
The moon turning blue in the blue  
Its not true  
Its not true  
Angel you mystify me  
You mystify me  
Hypnotize me every time  
Where'd you put my poisoned mind  
Release me  
Low and lonely  
High as kites  
When do you think  
We'll get it right  
Release me  
The sun is setting strange tonight  
When do you think  
We'll get it right
