

Gimme Water

Masters of Reality

Hello baby gimme water
You said you were the farmer's daughter
Wave your hand and give me water

Hello baby give me bread now
I'm hungry and I need to be fed now
Wave your wand and give me bread now

All your good is seedless
All your tears are needless
I'll be sitting waiting
While all my hope is fading
Just as well

Hola corrida dame agua
It's sunrise on the sufferbus

Wave your wand and give me
Dig your well and give me
Wave your wand and give me water
