

Sleep Walkin'

Masters of Reality

Don't know where I'm going
My horizon is prone
Got nothin' in my eyes
I got an achin' in my bones

Gotta keep movin'
Don't know what else to do
Gotta keep walkin'
Gonna walk on through

I've been movin' in circles
Been around many times
But I'll never see the light
I'm a sleep walkin' baby
All the time
Sleep walkin'

I got taken away
When the sun went down
I stood there in my own mind
The way a stranger prowls around
