Sleep Walkin'

Masters of Reality

Don't know where I'm going My horizon is prone Got nothin' in my eyes I got an achin' in my bones

Gotta keep movin' Don't know what else to do Gotta keep walkin' Gonna walk on through

I've been movin' in circles Been around many times But I'll never see the light I'm a sleep walkin' baby All the time Sleep walkin'

I got taken away When the sun went down I stood there in my own mind The way a stranger prowls around
