Naked Burn

Mastodon

Angels dancing with a mortal a sin A giant born within a woman's womb Nephilim walking through the forest breaking limbs As we bow and give respect to the gods

Save yourself Don't wait on me My feet are sewn Endless bottom

The church is burning from the inside out Altars falling into ashes again An eagle fly upon horizons with sight Focusing on all our family and friends

Apologize Can we rise above it Climb the line It's a good endeavor The ships arrived Let's sail into the weather Our crying eyes

Save yourself Don't wait on me My feet are sewn Endless bottom
