

Heartbeat

Mat Kearney

Nashville is burning tonight
You turn me right round, baby like a forty-five
I'm feeling every song that this town could write
Oh the fire in my head
And the drummer in my chest
Just take one look in my eyes and they will confess
That you got me feeling so high
And you are the rhythm of my life
My life

I feel your heart beat, beat, beat
Beating right next to me
The heat, heat, heat
Got me feeling like I believe
All the things, baby, that we could be
I feel your heart beat, beat, beat
Beating right next to me
Beating right next to me
Beating right next to me

I feel your heart beat
I feel your heart beat
I feel your heart beat
Your heart beat, your heart beat

Ain't bringing you no games
Ain't leaning on no cliché
If you sharing my bed, then babe
You share my name
'Cause you got me feeling so high
Oh baby, you are the rhythm of my life
My life

I feel your heart beat, beat, beat
Beating right next to me
The heat, heat, heat
Got me feeling like I believe
All the things, baby, that we could be
I feel your heart beat, beat, beat
Beating right next to me
Beating right next to me
Beating right next to me

I feel your heart beat
I feel your heart beat
I feel your heart beat
Your heart beat, your heart beat

I feel your heart beat, beat, beat
Beating right next to me
The heat, heat, heat
Got me feeling like I believe
All the things, baby, that we could be
I feel your heart beat, beat, beat
Beating right next to me
I feel your heart beat
I feel your heart beat

I feel your heart beat
Your heart beat, your heart beat
