

Let It Rain

Mat Kearney

For every time the tears are fallin' down your face
For every night you heard those three words start to change
When you're just close enough to know how far you're away
Let it rain

When the heart you've known feels like an empty home
And your frozen hands just don't feel like your own
When your love is caving and you don't have the strength to roll back
the stone

There's a time meant for war
There's a time meant to pray
There's a time there's a time there's a time there's a time
When all you can say is
Let it rain
Let it rain
Just because it's pouring down doesn't mean we're gonna drown
There's a time there's a time there's a time there's a time
When all you can say is
Let it rain

They say it's easier to just give up
Like the promises we made weren't strong enough
Can we turn down the road no one else seems to go with a pioneer love

There's a time to kick down the door
There's a time to run away
There's a time there's a time there's a time there's a time
When all you can say is
Let it rain
Let it rain
Just because it's pouring down doesn't mean we're gonna drown
There's a time there's a time there's a time there's a time
When all you can say is
Let it rain

'Cause you and I can never hide just running with the wind
We were born to be alive like we're never giving in
Yeah we got open eyes and another night to give it all away
Every time every time every time every time there's nothing to say

Let it rain
Let it rain
Just because it's pouring down doesn't mean we're gonna drown
There's a time there's a time there's a time there's a time
When all you can say is
Let it rain
Let it rain
Let it rain
Let it rain
