

# Won't Back Down

Mat Kearney

You woke the morning up  
Running off the darkest night  
The longest light I've seen

Here goes a chance I know  
Cashing in on all my chips  
Let all my ships come fly

These days, a little bit longer than the last  
And all of your ways, a little bit stronger than the past  
And your light, found my bottle in the night  
Kept me in this fight, gave me second life

And I won't back down  
I won't turn around and around  
And I won't back down  
Doesn't matter what comes crashing down  
I'm still gonna stand my solid ground

You found me once and for all  
I laid it down in the sinking ground  
The hopeless undertow

Singing out the gentle sound  
Rattling through my smoking screens  
My broken dreams last night

Hallelujah ripped through my veins  
I heard the hammer drop  
My blood in the rain  
Hallelujah came like a train  
When all is lost  
All is left to gain

Hallelujah
