

Leave That Junk Alone

Matanza

Well you come on thinking for open the door
You better pick on your feet or gonna fall on the floor
I keep on telling you and I tell you some more
you better leave that junk alone and drink water

Lord that liquor is hard drink water
You don't wanna be assault
You better lay down the bottle
And put it on the top and drink cool H2O

Well your eyes are begging and the bloodshot are ready
It's been a weak or two since you've been in bed
You better pay attention to what I say
You better leave that junk alone and drink water

Lord that liquor is hard drink water
You don't wanna be assault
You better lay down the bottle
And put it on the top and drink cool H2O

Well I forgive for you running around
If you just promess that you come unwild
I buy you anything that you want in town
If you leave that junk alone and drink water

Lord that liquor is hard drink water
You don't wanna be assault
You better lay down the bottle
And put it on the top and drink cool H2O
