

# Feel

## Matchbox Twenty

What you want, what you got  
Live your life in a crawl space  
I'll help you out but you don't want a chance at a better life  
You said you never took a ride and now you wanna play  
Well, it's a big, big city let me show you around some time  
Oh, some time

And now you crossed that line  
You can't come back  
Tell me how does it feel now  
It's too late too much to forget about  
Can't stop now  
How does it feel now  
I'm only asking because I wanna know  
How...you...wanna...feel

Well, I'm a wreck  
I'm a mess  
I'm a spot on the pavement  
I'm a number on your wall  
I make you so tired  
And I don't think I like this game no more  
It goes around and round and round  
I'll tell you one more time  
Yeah, one more time

And now you crossed that line  
You can't come back  
Tell me how does it feel now  
It's too late too much to forget about  
Can't stop now  
How does it feel now  
I'm only asking because I wanna know  
How...you...wanna...feel

How you wanna feel

And now you crossed that line  
You can't come back  
Tell me how does it feel now  
It's too late too much to forget about  
Can't stop now  
How does it feel now  
I'm only asking because I wanna know  
How...you...wanna...feel

How...you...wanna...feel

How...you...wanna...feel
