

Suffer Me

Matchbox Twenty

She wanted something just like the real thing
He needed love and it all worked out some how
He knows that love is the king of emotion
But he can't touch her because she's too perfect now
But she wasn't like that then and
He wasn't like that then
They were everything, everything they need
Chorus:
Suffer me
Call on me and i, i'll call on you
Suffer me
Call on me and i, I'll call on you, call on you
She wasn't thinking about anyone else just then
But she knew someone else would always come to mind
Because they were strangers living in the feeling
They were scared when they heard they talked about love
But it wasn't like that then
It just wasn't like that then
They took everything because everything was for real
Repeat chorus
Oh yes they were thinning out
At that moment they were all afraid
Started thinking that pretty soon one of them would leave
She said suffer me
Repeat chorus twice
