

Thought about who you are
Your dad is alright
But you fooled it up to weather
You bet he's alright

Get off your ass before you go
You never look up

Should I try to undo the words that I just said
Replace them with your words instead

Your father said you never looked that alive
Nobody says you ever looked that alive

Get off your ass before you go
You never look up

Should I try to unmake the moves that I just made
Replace them with your moves instead

Your father said you never looked that alive
Nobody says you ever looked that alive

Get off your ass before you go
You never look up

Thought about who you are
Your dad is alright
But you fooled it up to weather
You bet he's alright
