

## Radio Edit

Matmatah

Do I have to cut this bar ?  
Got a call from the A&R  
They said : "Hey baby, we can make you be a star !  
Yeah, we love your song  
But the track's too long  
- Sir, I'm not so dumb  
'know something's wrong"  
You say you need a radio edit  
Well, I'm gonna think about it  
You say you need a radio edit  
Of course, I can do it  
For all the mixes I could do for you, especially for you  
I'll do  
Now you got my radio edit, make it a hit

You say you really need a better edit  
I'm gonna cut in it, you're gonna love it  
You say you really need shorter lyrics  
We all want to move units  
For all the mixes I could do for you, especially for you  
Fuck you.  
Now you got my radio edit, make it a hit  
Now you got my radio edit, make it a shit
