

# Earthquake

Cab, Matt

[Verse 1]

She got me goin' crazy  
Thinkin' about the things we used to be  
All the things she meant to me  
How she said she'd never leave  
Don't know how it happened  
But it seemed like it was yesterday  
When everything I did made you smile

[Hook]

And now I don't know left from right  
You turned my whole world upside down  
So won't you come save me now?  
So won't you come save me?

[Chorus: x2]

It's like an earthquake  
Shaking up the way I loved you  
Wanna come to your rescue  
But I'm no longer loved  
I said I'm no longer loved

[Verse 2]

I wish I could question why  
To the days when you were mine, yeah  
I'd throw back the hands of time  
And everything would just be fine, yeah  
But everything's so messed up now  
How'd it get so complicated?  
We were like a work of art  
But girl somehow it faded

And now I don't know left from right  
You turned my world upside down  
So won't you come save me now  
So won't you come save me?

(2x)

It's like an earthquake  
Shaking up the way I loved you  
Wanna come to your rescue  
But I'm no longer loved  
I said I'm no longer loved

[Bridge]

It's all crashing down like an earthquake  
It's all crashing down like an earthquake  
It's all crashing down like an earthquake  
Like an earthquake, So won't you come save me?

(2x)

It's like an earthquake  
Shaking up the way I love you  
Wanna come to your rescue  
But I'm no longer loved  
I said I'm no longer loved
