If I write the story, would be in with me? Fill the pages up with memories still to come. Let's write a love story.

When I get you next to me Feels like I'm living the dream I never wanna wake up. I might never wanna leave You fill me perfectly, you're all I ever need. Sometimes, the world's moving so fast And I just want it to stop Everytime I fell down you bring me back to the top. I'll be lost without a clue, Without you-ooooo. When I close my eyes All I see is you. If I write the story, would be in with me? Fill the pages up with memories still to come. We don't need an ending Just like the beginning Let words take us where we need to be. Let's write a love story.

We don't need to make believe, I've got you, and you've got me, No doubt this love is so real. If you take a chance with me, we'll write our history You're all I ever need.

Sometimes, the world's moving so fast
And I just want it to stop
Everytime I fell down you bring me back to the top.
I'll be lost without a clue,
Without you-ooooo.
When I close my eyes
All I see is you.
If I write the story, would be in with me?
Fill the pages up with memories still to come.
We don't need an ending
Just like the beginning
Let words take us where we need to be.
Let's write a love story.

If I could write a thousand versions of my life I would make sure that I met you everytime.
Under the blue sky,
On the rooftop
When I heard you calling my name
There is nothing I would change it by.

If I write the story, would be in with me? Fill the pages up with memories still to come. We don't need an ending Just like the beginning Let words take us where we need to be. Let's write a love story.

Oh oh oooooh, oh oh ooooooh

Oh oh oooooh, oh oh ooooooh
Oh oh oooooh, oh oh ooooooh
Let's write a love story.

Let's write a love story
