

# All For Nothing

Matt Cardle

Use your eyes, oh father  
'Cause I had a dream last night  
I saw her body broke, still and cold where she lay  
And it was all for nothing  
This love I gave

And I pray you keep her safe  
Bring her home, keep harm away  
And I pray, don't let me down  
Bring her back 'cause I need her now  
I pray, someone else can take her place  
Don't make it all for nothing  
This love we made

She's my best friend, oh mother  
No other woman could turn my eye, drag me away  
With the blessing comes the worry, and I worry  
Don't make it all for nothing  
The love we made

And I pray you keep her safe  
Bring her home, keep harm away  
And I pray, don't let me down  
Bring her back 'cause I need her now  
I pray, someone else can take her place  
Don't make it all for nothing  
This love we made

Falling in love is like playing with fire  
Pulling me down but it's takin' me higher  
I know it's my fault and I'm asking for favours  
I needed a knife but you gave me the razor

I pray you keep her safe  
Bring her home, keep harm away  
And I pray, don't let me down  
Bring her back 'cause I need her now  
I pray, someone else can take her place  
Don't make it all for nothing  
This love we made  
Don't make it all for nothing  
This love we made
