

For Every Heartbreak

Matt Cardle

When I burned my mind I find it's crystal clear
When I stand in low I know I have no feet
I feel sick inside, times I feel you near
The pain is kind enough to remind me I don't need you here

I was coming undone, now I'm coming up swinging
Seem like the end but it's only the beginning
If there's no heart, there's no healing
For every heartbreak there's a reason

Twix the broken heart, is a love we can't recover
But the crime suggest I could be no less off of her
You were my best friend, my lady and my lover
I could've laid with you til the end like no other

I was coming undone, now I'm coming up swinging
Seem like the end but it's only the beginning
If there's no heart, there's no healing
For every heartbreak there's a reason

I was coming undone, now I'm coming up swinging
Seem like the end but it's only the beginning
If there's no heart, there's no healing
For every heartbreak there's a reason

I was coming undone, now I'm coming up swinging
Seem like the end but it's only the beginning
If there's no heart, there's no healing
For every heartbreak there's a reason

For every heartbreak there's a reason
For every heartbreak there's a reason
