

The Fire

Matt Cardle

You held me over the fire
Why'd you had to prove it to yourself?
I told you nobody is a liar
Would you burn me til there's nothing left?

So put me down down
And while you push I'm tryina figure out, out, out

Just why you keep on begging
Begging through the time I got you here
I love you, love you
Darling, don't you understand? I do, I do know
Turn now, I'm begging, begging
We gotta put this fire out

You take it down to the wire
You won't surrender but I won't let you fall, it's your fight
Your courage I admire
You got my last things, you don't want it at all

So put me down down
And while you push I'm tryina figure out, out, out

Just why you keep on begging
Begging through the time I got you here
I love you, love you
Darling, don't you understand? I do, I do know
Turn now, I'm begging, begging
We gotta put this fire out

Love you, love you
Turn back, I love you, love you

I'm tryina figure out, out, out

Just why you keep on begging
Begging through the time I got you here
I love you, love you
Darling, don't you understand? I do, I do know
Turn now, I'm begging, begging
We gotta put this fire out

Begging, begging through the time I got you here
I love you, love you
Darling, don't you understand? I do, I do know
Turn now, I'm begging, begging
We gotta put this fire out

Love you, love you
Turn back, I love you, love you
