

# Good to Be Alone

**Matt Corby**

In the back of my mind  
Everything seems fine  
You go your way I go mine  
We just need to take our time

It is good... To be alone

And I was lost in the dark  
We all had to play our part  
I was hunted by the one  
The one that froze my heart

It is good... To be alone  
It is good... To be alone

I keep telling myself  
It's gonna be better  
I keep telling myself  
It's gonna be better  
It's gonna be better

It is good... To be alone  
It is good... To be alone
