Good to Be Alone

Matt Corby

In the back of my mind
Everything seems fine
You go your way I go mine
We just need to take our time

It is good... To be alone

And I was lost in the dark
We all had to play our part
I was hunted by the one
The one that froze my heart

It is good... To be alone
It is good... To be alone

I keep telling myself
It's gonna be better
I keep telling myself
It's gonna be better
It's gonna be better

It is good... To be alone
It is good... To be alone
