

# Josephine

**Matt Costa**

Josephine, Josephine, you're not the girl for me  
Josephine, Josephine, you're not the girl for me  
Well I found out, we were wrong and never meant to be  
Well I found out, we were wrong and never meant to be

Well, I've got this life to waste my time  
It'll take some time to ease my mind  
I've got this life and that's for sure  
Josephine is walking out that door

You know that, time can change you  
You know the clock will age you  
You know that I can't blame you  
You're not who you used to be

Live an learn  
She's rolling right by me  
Find me a good girl, one with soul  
Your water's too shallow  
Find me a good girl, one with soul  
Your water's too shallow

Well, someone with money can buy you rings  
Stuck in these hard times sweeping change  
I've got this life and that's for sure  
Josephine is walking out my door

You know that, time can change you  
You know the clock will age you  
You know that I can't blame you  
You're not who you used to be  
You know that, time can change you  
You know the clock will age you  
You know that I can't blame you  
You're not who you used to be
