

Yellow Taxi

Matt Costa

Can, can you spare some conversation
Can, can you spare some conversation

I need a yellow taxi cab today
I need your taxi cab to take me away
I need a yellow taxi cab today
So take us, driver, take us far away

I need someone like you
Someone to see me through

People looking happy
While sadly I wait for my taxi

She was standing next to me
I looked alone she took me home
In her arms I laid my head
She listened to everything I said

I need someone like you
Someone to talk to

I need a yellow taxi cab today
I need your taxi cab to take me away
I need a yellow taxi cab today
So take us driver take us far away

I need someone like you
Someone to see me through

Can, can you spare some conversation
Can, can you spare some conversation

I'm standing out here all alone
I need someone to take me home
She was standing next to me
There's room for you and room for me

I need someone like you
Someone to talk to

And we shared some conversation
And we shared some conversation
