

# It Can Only Get Better

Matt Dusk

You let the sun refuse to shine  
It won't be long before the days are brighter  
If every step's an uphill climb  
Carry on until they feel much lighter  
For all the clouds up in the sky  
For all the teardrops in the eyes

It can only get better  
Be still my heart  
It can only get better  
We've come this far  
It can only get better  
I know it hurts  
For what it's worth  
It can only get better

If they should ever come our way  
Dry the tears and look somewhere above them  
It's easier to say than to do  
But make believe that you no longer love them  
When your back's against the ropes  
When you miss someone the most

It can only get better  
Be still my heart  
It can only get better  
We've come this far  
It can only get better  
I know it hurts  
For what it's worth  
It can only get better

I know it hurts  
For what it's worth  
It can only get better

I know it hurts  
For what it's worth  
It can only get better
