Love, Don't Let Me Go

Matt Dusk

Love, don't you let me go When I need you so Don't you let me go

You keep my dreams alive How would I survive Without you in my life?

Loneliness would take your place The moment that you're gone It would be so hard to carry on

Love, leave me in the dark And I will fall apart It would break my heart

I don't need to hear your voice
To know when you're around
In this hour of darkness
I am looking to be found
I can only hope that you
Won't let me down

Love, love don't you let me go When I need you so Love, don't you let me go
