

# Forever

Matt Hires

Oooh oooh ooooooh  
Oooh oooh ooooooh

Stay. Don't go  
I wanna hear you telling me what  
I don't know  
Your silence is a mystery that  
Makes me feel so  
Scared we'll never make it  
If we run away this time

I wish that we could lay right here and  
Never think about our fears  
Forever, forever, forever  
Forget about tomorrow's light  
I only wanna hold tonight  
Forever, forever, forever

What's done is done  
What happens if we turn the page to  
Where we've won  
Darlin', can we just pretend that  
Every second  
Is passing like a hundred years  
That I can be with you

I wish that we could lay right here and  
Never think about our fears  
Forever, forever, forever  
Forget about tomorrow's light  
I only wanna hold tonight  
Forever, forever, forever

Oooh oooh ooooooh  
Oooh oooh ooooooh

What if time could stand still

I wish that we could lay right here and  
Never think about our fears  
Forever, forever, forever  
Forget about tomorrow's light  
I only wanna hold tonight  
Forever, forever, forever

I wish that we could lay right here and  
Never think about our fears  
Forever, forever, forever  
Forget about tomorrow's light  
I only wanna hold tonight  
Forever, forever, forever

I wish that we could lay right here and  
Never think about our fears  
Forever, forever, forever  
Forget about tomorrow's light  
I only wanna hold tonight

Forever, forever, forever
