Forever

Matt Hires

Oooh oooh oooooh Oooh oooh oooooh

Stay. Don't go
I wanna hear you telling me what
I don't know
Your silence is a mistery that
Makes me feel so
Scared we'll never make it
If we run away this time

I wish that we could lay right here and Never think about our fears Forever, forever, forever Forget about tomorrow's light I only wanna hold tonight Forever, forever, forever

What's done is done What happens if we turn the page to Where we've won Darlin', can we just pretend that Every second Is passing like a hundred years That I can be with you

I wish that we could lay right here and Never think about our fears Forever, forever, forever Forget about tomorrow's light I only wanna hold tonight Forever, forever, forever

Oooh oooh oooooh Oooh oooh oooooh

What if time could stand still

I wish that we could lay right here and Never think about our fears Forever, forever, forever Forget about tomorrow's light I only wanna hold tonight Forever, forever, forever

I wish that we could lay right here and Never think about our fears Forever, forever, forever Forget about tomorrow's light I only wanna hold tonight Forever, forever, forever

I wish that we could lay right here and Never think about our fears Forever, forever, forever Forget about tomorrow's light I only wanna hold tonight Forever, forever, forever
