

Good For Great

Matt & Kim

Bruises and scrapes
All life's mistakes
Are nothing but
Bad weather

Help you sneak in
All of my friends
Just so we could leave
Together

The books I wont read
The air that i'll breathe
The colors I've seen
I'll leave these pages in the trees

Today
Leave good for great
Leave sleep for late
Leave good for great
Leave sleep for late
Leave good for great
Leave sleep for late
Leave good

So many books that I didn't read
But theres so much air i chose to breathe
How about the colors that i've seen
So I'll leave these pages in the trees

I don't sit alone
or pick up my phone
One day we'll say
All that we had
The beaten path
Is beaten fast
I'm practicing hooks and jabs

I traced a few lines
Misread all the signs
Slipped many times
My bloods still red
And I'm just fine

Today
Leave good for great
Leave sleep for late
Leave good for great

So many books that I didn't read
But theres so much air i chose to breathe
How about the colors that i've seen
So I'll leave these pages in the trees

We sing along
But the notes are wrong
We sing along
Through the night and dawn
