

I Said

Matt & Kim

I made the calls in my life, you see
Now the phone lines are down
But together, just you and me
Can rewire this town

Some days I feel like I'm doing time
I know you're just as confused
This could become the perfect crime
We're off with nothing to lose

I said, I said
I said it's real
I said, I said
You take the wheel
You said, you said
You said no deal
But I said, I said
I said, I said

Now we could take over the whole world
Or at least a small piece
It's not a gun but some hair you twirled
And then you called the police

I said, I said
I said it's real
I said, I said
You take the wheel
You said, you said
You said no deal
But I said, I said
I said, I said
