

# My Only Love

**Matt Maher**

I still want you  
Yes, I need you  
To have and to hold you  
After all of these years

I will listen  
To your problems  
Won't try to fix them  
Just wipe away your tears

And if you need me in the middle of the night, my dear  
I'll stay awake till morning light and chase away your fears

So come closer  
Right here forever  
Deep in my heartbeat  
Together as one  
My only love

If you need me in the middle of the night, my dear  
I'll stay awake till morning light and chase away your fears

So come closer  
Right here forever  
Deep in my heartbeat  
Together as one  
My only love  
My only love  
My only love
