Car Crash

Matt Nathanson

I'm wide awake and so alive
Ringing like a bell
Tell me this is paradise
And not someplace I fell
'Cause I keep on fallin' down

I wanna feel the car crash
I wanna feel the capsize
I wanna feel the bomb drop, the earth stop
'Til I'm satisfied
I wanna feel the car crash
'Cause I'm dyin' on the inside
I wanna let go and know
That I'll be alright, alright

Just push me 'til I have to fly
I've shed my skin, my scars
Take me deep out past the lights
Where nothing dims these stars
Nothing dims these stars

I wanna feel the car crash
I wanna feel the capsize
I wanna feel the bomb drop, the earth stop
'Til I'm satisfied
I wanna feel the car crash
'Cause I'm dyin' on the inside
I wanna let go and know
That I'll be alright, alright

So right
It's all wrong

I'm wide awake and so alive

I wanna feel the car crash
I wanna feel the capsize
I wanna feel the bomb drop, the earth stop
'Til I'm satisfied
I wanna feel the car crash
'Cause I'm dyin' on the inside
I wanna let go and know
That I'll be alright, alright
