Everything You Say Sounds Like Gospel

Matt Nathanson

I've got bravery that shorts out on me I see superstars in common thieves And I see all you give up And I try to be as much

Everything you say it sounds like gospel Everything you say it sounds like gospel to me

I feel cheated Tangled up repeatedly Owed a piece of everything And Still you come around With scissors to cut me down

Everything you say it sounds like gospel Everything you say it sounds like gospel to me

It's all I can do to win for you
