

# No Me Without U

M. Pokora

I remember how I felt when we first met  
Desire to know  
How could I make the first step  
The shortest way to go  
And it didn't take more than a kiss  
To seal the deal  
Girl you're still as  
Pretty as the first day  
That we first met  
If not more

Everything you do  
Got me wanting more and more  
Something about you  
Really turns me on  
And the way you smile  
Really drives me wild  
Stay for a while

Coz  
Everything about you so beautiful  
Baby don't no one compare to you  
Coz  
Everything about you so beautiful  
I want you close to me coz  
You know that you're irreplaceable  
Girl there's no MP, without u  
Girl no MP without u  
Girl there's no MP without u  
Girl no MP without u

Some people search  
For a whole lifetime  
And they still can't find  
That special someone that  
Still there and  
Got your back  
And when it all falls down  
They'll still be around  
To catch you when you fall  
And that's why I got you  
You  
And you got me  
Me

And I'm in love everything  
Everything you do  
Got me wanting more and more  
Something about you  
Really turns me on  
Ant the way you smile  
Really drives me wild  
Stay for a while

[Refrain x2]
