

Amazing life  
We've been given  
I know that you had some troubles  
I have had some troubles  
We been wasted  
We've been complacent  
We've given in to getting through the days

I hear the doves  
Singing in the trees  
They call the dusk  
Its colors nod to sleep  
The coming dark  
Can't hide what we can see  
Can't hide what we can see

The algebra  
Of innocence  
Is lost in the bathroom mirrors  
Practiced born and steady  
Been complacent  
We've been bad neighbors  
We've been unfaithful in our prime age  
To open up to see what happens next  
To see our hearts  
To risk breaking our necks  
To chop it down  
To follow there against  
So we'll be young again

Amazing world  
The ground that gives  
I know that you had some troubles  
I have had some troubles  
We been wasted  
We've been complacent  
We've given in to getting through the days  
I saw a star  
Fall from a green sky  
I saw you laugh  
Your eyes were opened wide  
I saw your skin  
Uncovered in the night  
Uncovered in the night
