Matt Pond PA

(it's) Tough to close this map
There's too much wind in the back
It's your new coat - I don't like
It's way too cold - the radio plays

The sky blue-black tonight
You should turn on - your lights
Cause when they flash - you'll know
It's when they flash - you're not alone here

Make an offer to pretend
The words are less like lines
You've seen it all before
The sign left standing
