

## Green Grass

Matt Pond PA

look captured - but calm behind your eyes - why you try  
You break my heart and I can't evolve  
With nature - there's so much less to mind - why you lie  
You break my heart and I can't evolve

on the green grass on the green grass  
Under starlight starlight

but this nature - has to be denied - why I try  
And it breaks my heart - that I can't evolve  
I've settled - I've given up desire - why I lie  
And it breaks my heart - that I can't evolve

on the green grass on the green grass  
Under starlight starlight
