

from these lists i put the blame
if everything from jefferson down to arch street remains
along the lines tonight's the same
I believe I'd use my feet

what we know - i go too far
the border of the granite state
we're a river apart
the call breaks
my hearing's hard

i believe i'd use my feet

i believe i'd use my feet

the roles to play may not be fair
if 89 and 93 are the number of stairs
know i am and it's not there
i believe i'd use my feet
i believe i'd use my feet
