

Emotionally Involved

Matt Simons

All alone on the road done my miles now
I'm a soldier, a dark horse, a warrior
Hungry for, I don't know, going oh so crazy from this distance
Take my soul, take everything I know, take control of my existence

You got emotional
You got emotional
We got emotionally involved
We got emotionally involved again

Saved my soul and it shows, such a friend to me
All I know's you're so close, now we're family
You got on, I got off, we got over it
Have some sense, I'll be steady with my intent,
but I know we can't forget it

You got emotional
You got emotional
We got emotionally involved
We got emotionally involved again

I'll never forgive myself if I lose you
I'll never forgive myself if I lose you
Never forgive myself if I lose you
My whole life

You got emotional
You got emotional
We got emotionally involved
We got emotionally involved
We got emotionally involved
We got emotionally involved again.
