

My Reverie

Matt Simons

Take this painting that I made for you
It could be so heavenly
To walk along the scene
Take this song I wrote and played for you
It could be my reverie
It's all my hopes and dreams

But far away
I lay awake
My thoughts begin to wander
A broken record plays

Im so glad you came
I thought you moved away
No I did not forget you
It feels like only yesterday

You left without a trace
Now we can start anew
I could have spent a lifetime
Getting over you
I was on the edge of all that I could go through

Take this ring I went and got for you
Never take it off again
This symbol by your side

Take this trip I went and bought for you
We can fly away and then
Your heart can be my guide

But far away

I lay awake
My thoughts begin to wander
A broken record plays

I'm so glad you came
I thought you moved away
No I did not forget you
It feels like only yesterday

You left without a trace
Now we can start anew
I could have spent a lifetime
Getting over you
I was on the edge of all that I could go through

And only you can save
Only you can save
Only you can save me now

I'm so glad you came
I thought you moved away
No I did not forget you
It feels like only yesterday
You left without a trace

Now we can start anew
I could have spent a lifetime
Getting over you

I was on the edge of all that I could go through
I was on the edge of all that I could go through
I am on the edge of all that I can go through
