

Stage I Remember

Matt Webb

I think this was from a while ago
We could barely breathe after the show
I've got a scrape and a bruise or two
And the crowd got the best of you

I can see through the picture frame
Waving arms and the lighter flame
Sing along cause we think we're good
Sing along cause we know that one day

You and I would stand right there
And everyone would stop and stare at us
You get that starry eyed look when you're dreaming too much

Push our way up front and leave it all behind
I can cross my dirty fingers and hope the stars align
Someday I'll know how it feels right there
This stage I remember

Scrapbook of tickets from the shows
Dad was keeping track of all we owed
I guess I never really paid him back
I guess maybe he knew that one day

You and I would stand right there
And everyone would stop and stare at us
You get that starry eyed look when you dream too much

Push our way up front and leave it all behind
I can cross my dirty fingers and hope the stars align
Someday I'll know how it feels right there
This stage I remember all the nights with ringing in my ear
When we'd wave and sing along as the world would disappear on us
I'll know how it feels right there

I think this was from a while ago
A picture of a place we shared
You and I were standing there
And everyone would stop and stare at us

I can cross my dirty fingers and hope the stars align
I cross my dirty fingers and leave the world behind

And we'll push our way up front and leave it all behind
Someday I'll know how it feels right there
This stage I remember all the nights with ringing in my ear
When we'd wave and sing along as the world would disappear on us
I'll know how it feels right there

This stage I remember
