

## Summer Sun

Matt Wertz

Remember the long days singing through palm leaves  
Remember the ocean air  
Wearin' our brown skin sprinkled with sea breeze  
Wind blowin' through your August hair

Summer sun, nothin' but time to waste  
We were young, both of us taking a chance on love  
Under the sun, summer sun

You held me tightly, I kissed you softly  
Sweeter than lemonade  
Learning the hours, learning each other  
Suddenly finding how to be

Summer sun, nothin' but time to waste  
We were young, both of us taking a chance on love  
Under the sun, summer sun

And when day faded into starlight  
You and the moon at midnight  
Nowhere I'd rather be

Summer sun, nothin' but time to waste  
We were young, both of us taking a chance on love  
Under the sun, under the sun

Summer sun, nothin' but time to waste  
We were young, both of us taking a chance on love  
Under the sun, under the sun
