With You, Tonight

Matt Wertz

Saturday, 600 miles Lie between, the two of us And telephones, they can't replace Me with you, face to face.

You gotta tell me it's true
That you feel the same
I'm so much better when
I say you're name

CHORUS:

Let me be with you tonight Everything will be just fine With you tonight

When Streetlights kissed, upon your lips My jealous eyes, saw all of it Losing sleep, we learned to be Me with you, you with me

CHORUS

You gotta tell me it's true
That you feel the same
I'm so much better when
I say you're name

CHORUS (2x)
