

# Anybody Else

Matt White

We used to talk about nothing  
Everyday after school  
You could try, deny the mutual attraction  
I tell you I ain't no fool

And if you're feeling lonely  
Only one call away  
You could try, but I need some more affection  
And what else can I say?

Oh baby, why can't you see  
You're making such a fool of me?  
And I don't want you loving anybody else

Oh baby, why can't you see  
I wear my heart around my sleeve?  
And I don't want you loving anybody else

I couldn't say you meant nothing  
Didn't mean to play with your head  
I will try to find something else to tell you  
Something to tell all your friends

And now I'm feeling so stupid  
Lonely days by myself  
I won't compete to see that this is all this nonsense  
All the love sick I can be

Oh baby, why can't you see  
You're making such a fool of me?  
And I don't want you loving anybody else

Oh baby, why can't you see  
I wear my heart around my sleeve?  
And I don't want you loving anybody else

Oh baby, why can't you see  
You're making such a fool of me?  
And I don't want you loving anybody else

Oh baby, why can't you see  
I wear my heart around my sleeve?  
I don't want you loving anybody else

I just don't want you loving anybody else  
I just don't want you loving anybody else  
I just don't want you loving anybody else  
Oh baby
